Regional Quindío.

2023

Dear Mr Anthony Lake

Executive Director

United Nations Children's Fund (UNICEF).

Greetings of peace and well being.

The main purpose of writing this email is to express my interest in being considered to fill the vacancy that was published on March 9th of this year, on the official website of Unicef, for the position of Diverse Education Specialist, whose vacancy is required in the city of Medellín.

I feel fully capable of strengthening the resilience of girls, boys, adolescents and young people with disabilities and from vulnerable environments, through the provision of access to equitable education.

I am interested in being part of this company, because I identify with the specific objective that is set out, where we work hard to overcome the obstacles that poverty, violence, disease and discrimination place in the way of a child.

Advocating to give them the best start in life because proper care at the earliest age, is the most solid foundation for the future of a person. I am motivated to fill the vacancy as Diverse Education Specialist, because I have the ideal professional profile and the necessary experience to fully perform the functions assigned to me.

For 10 consecutive years I have been working with vulnerable population, with adolescents and young people deprived of liberty under the Colombian Criminal Responsibility System, which has led me to know extensively about the law 1098 of 2006 - Code of Childhood and Adolescence. In the same way, I have accompanied and recreated children from the poorest neighborhoods of the city of Medellin in their

first years of school life. From the area of pedagogy, to advise children immersed in the world of drug addiction and initiation to prostitution.

I have developed the ability to adapt and trust, constant conflict resolution, critical thinking, empathy, and a sense of responsibility. I have completed several diploma courses in various topics related to the educational field. I am currently a Specialist in Inclusive Education at the National University of Medellin. I am about to start my Master's Degree in Educational Management.

I am the right candidate for this position, since I am professionally prepared to accompany and guarantee rights, through the generation, dissemination of information and analysis, seeking to make visible disparities, lags and situations of exclusion and discrimination suffered by children and adolescents.

I have all the availability and openness, therefore, I would like to be allowed to conduct the interview process for this vacancy.

Thank you for your attention

Sincerely

Sor Junny Londoño Rivera

Specialist in Diverse Education
